ENVIRONMENTAL EQUIPMENT AND FIELD SUPPLIES

Beyond Sales. Problem Solving.

FEI takes the hassle out of renting equipment because experienced customer service representatives have the depth of knowledge to help you in a variety of ways.

Equipment selection, peripherals and supplies decisions.

Guidance in equipment selection is one of the most valued benefits FEI customers enjoy. From the moment your call is answered, we make sure we understand your project requirements so you have access to the instruments, peripherals and supplies that fit your project perfectly. FEI is invested in your success.

Front-line technical advice.

Equipment knowledge is at the heart of FEI's success. Training is just as important for FEI's customer service representatives as it is for our technical team and service managers. For this reason, you gain valuable application and technical tips when you place your order.

Free local delivery and pickup. Shipping logistics assistance.

We know shipping costs can be one of the greatest threats to your bottom line. FEI's free local delivery saves money. We work with you to find the most cost-effective, time-saving methods of outbound shipping. Finally, domestic return shipping arrangements are made when you place your order so we can include the documentation you need with your shipment. This simplifies returning equipment and saves you valuable time.
