Toll-Free
800-393-4009

Ideal for retrieving continuous core samples, this all stainless steel sampler is easily extended using the optional 12" thread-on barrel extensions. Durable, heat-treated core and auger tips are included and may be interchanged as needed. If you're planning to sample sludge or other flowable material, use the optional core and auger tips with butterfly valves.

Complete kit includes: 12" stainless steel sampler body, core tip, auger tip, solid cap, stainless steel liner, two polyethylene liner caps, and slip wrench. Optional liners enable you to recover samples with near zero contamination as required in hazardous waste sampling. Appropriate extensions, cross handles, and hammer attachments are sold separately. Inside diameter: 2". Outside diameter: 2-3/4".
