CLEARWATER

Oil Eaters

"Your Needs Are Our Business"

Toll-Free
800-393-4009

Easily and inexpensively removes oil from the top of groundwater monitoring wells. The protective housing holds a hydrophobic membrane which absorbs petroleum chemicals only, not water.

To use, tie off the end of the retrieval cord and lower the Oil Eater into the opening of the monitoring well. The absorbency depends on the viscosity of the liquid. Simply dispose of the entire unit, making clean-up a snap!

Each Oil Eater measures 20"L x 1.25" in diameter.

- Designed for removal of top layer of petroleum before sampling.
- Petroleum absorbing capacity of 0.5 liters per unit.
- Does not absorb water!
- 1.25" (31.75mm) O.D. X 20" (508mm) long.
- Each unit individually cleaned, sealed and ready to use.
