Any job that calls for accurate alignment over a distance can be done faster and better with an optical instrument like the David White L6-20NC.

The L6-20NC level package includes: level plus aluminum extension leg tripod and 9-ft. aluminum rod.

This level package makes jobs such as grading for side-walks or driveways, leveling walls or foundations, setting forms and footings, or estimating cut and fill requirements to be done in less time and more accurately.

Features:

- 20X optic system
- Built-in sunshade
- Horizontal lock and tangent screw
- Large easy to use leveling screws
- Level, plumb bob, carrying case and owner's manual
