

ClearView Polyethylene Bailers

Benefits:

- Straight clear
- High quality assembly

Material:

- Virgin high density polyethylene tubing, tops, and bottoms
- Ball is a high grade PVC material

Specially Designed Tops:

- Allowing samples to be poured accurately, with little or no splashing
- Strong ridged tethering attachment for secure fastening of bailer rope
- Each part is press fitted and double welded, to assist in the bonding of tube to top device

Specially Designed Bottoms:

- Redesigned ball seat helps to deter sticking of ball, with out sample loss, between ball and device
- Large .65 inch opening allowing for large volumes of product to rapidly fill the bailer with minimal disturbance to the sample. Also speeds up sampling and or purge time, thus saving money
- Each part is press fitted and welded, for little or no leaking between tube and bottom device

Sizes: Volume:

1.5" x 1' 342 mL
1.5" x 3' 1025 mL

ESP fully encapsulated weight system

- ESP's polyethylene weight system is a fully encapsulated steel weight
- Protects sample from cross contamination, caused by leaching of the steel weight
- Specially designed ball gate to assist in overall performance
- Press fitted and welded
