

Confined Space Entry and Rescue Systems

Elk River Confined Space Entry and Rescue Systems are designed for lowering and lifting into and out of confined spaces where a tripod system is required. We offer three systems: Economy, Standard, and Deluxe.

Economy Confined Space System

This system contains:

Tripod pulley (P/N 13820)
 Tripod head assembly (P/N 15300)
 Tripod leg assembly (P/N 15301)
 Auto-lock carabiners (P/N 17143)
 Rope grab (P/N 19213)
 Yoke (P/N 25999)
 Yellow rope bag (P/N 88031)
 Burgundy tripod bag (P/N 88058)
 Blue small harness bag (P/N 88142)
 Red winch bag (P/N 88065)

Economy Confined Space Systems also include an EZE-MAN Winch (25', 50', 75' or 100' lengths) and a 5/8" Nylon Rope Lifeline (with a 13120 3/4" throat opening Centurion auto-lock snaphook on one end and a thimble eye on other end) (25', 50', 75' or 100' lengths), Elk River 5/8" Rope Grab (P/N 19213) with attached three-foot rope lanyard with 13102 3/4" inch double-locking snaphook. Economy Confined Space Systems come with a Five D-ring Universal full body harness at no additional charge.

Economy Confined Space System

Available Lengths: 25', 50', 75', 100'
 Part Numbers: 05611 - 05614

EZE-MAN Winch with New Quick Attachment

The EZE-MAN Winch is a Suspension (SU) and Retrieval (RT) unit designed to be used in conjunction with the EZE-MAN Tripod. It functions by lowering and raising a worker into and out of confined spaces with ease. The EZE-MAN Winch does not provide Fall Arrest (FA) protection. A personal fall arrest system is required whenever a worker is being raised or lowered more than six feet.

A suitable personal fall arrest system could consist of either a Lifeline/Rope Grab system, or a Retractable Lanyard attached by a compatible carabiner to the off-center eye bolt on the EZE-MAN Tripod. The EZE-MAN Winch is man-rated to 350 pounds total weight and is designed for all day continuous use. This winch features a positive brake that is designed to stay in the active mode and can not be accidentally released since there are no levers or switches. All winch cables come standard with a 13313 double-locking 3/4" throat opening swivel snaphook. With 3/16" Galvanized Aircraft Cable.

Available Sizes: 25', 50', 75', 100'
 Part Numbers: 21025 - 21100

Standard Confined Space System

This system contains:

Two Tripod pulleys (P/N 13820)
Tripod head assembly (P/N 15300)
Tripod leg assembly (P/N 15301)
Two auto-lock carabiners (P/N 17143)
Yoke (P/N 25999)
Blue retractable bag (P/N 88032)
Burgundy tripod bag (P/N 88058)
Charcoal large harness bag (P/N 88166)
Red winch bag (P/N 88065)

Standard Confined Space Systems also include an EZE-MAN Winch (25', 50', 75' or 100' lengths) and a Retractable Lanyard (25', 50', 75' or 100' lengths). Standard Confined Space Systems come with a Five D-ring Universal (P/N 42559) full body harness at no additional charge.

Standard Confined Space System

Available Lengths: 25', 50', 75', 100'
Part Numbers: 05621 - 05624

New Deluxe EZE-Man Winch

Faster than the original, with the same safe easy to use features.
New quick attachment for greater convenience.

Available Sizes: 25', 50', 75', 100'
Part Numbers: 21125 - 21200

Deluxe Confined Space System

This system contains:

Two Tripod pulleys (P/N 13820)
Tripod head assembly (P/N 15300)
Tripod leg assembly (P/N 15301)
Two auto-lock carabiners (P/N 17143)
Yoke (P/N 25999)
Blue retractable bag (P/N 88032)
Burgundy tripod bag (P/N 88058)
Charcoal large harness bag (P/N 88166)
Red winch bag (P/N 88065)

Deluxe Confined Space Systems also include an Deluxe EZE-MAN Winch (25', 50', 75' or 100' lengths) and a Retractable Lanyard (25', 50', 75' or 100' lengths). Deluxe Confined Space Systems come with a Five D-ring Universal (P/N 42559) full body harness at no additional charge.

Deluxe Confined Space System

Available Lengths: 25', 50', 75', 100'
Part Numbers: 05631 - 05634

Standard & Economy Tripod Bag

Bag measures 61" x 16" x 24" and is available only in burgundy. Pull cord, Elk River Logo.

Available Sizes: One Size
Part Numbers: 88058
