

Retractable Lanyards

Retractable Lanyards can be used in a wide range of work situations where extra mobility is required. Typically the mechanical device is anchored to an approved overhead anchorage to eliminate interference with ladders and vertical work areas.

Care should be taken to address the "pendulum" or "swing" action of the Fall Arrest (FA) when Retractable Lanyards are in use. NOTE: All Retractable Lanyards require carabiners.

Retractable Lanyards feature an internal sealed spring mechanism that allows normal controlled movement away from the device. The inertial disc brake system is activated by any sudden movement, accidental slip or fall. It functions much like a seat belt, once activated it stops the action of the fall. An energy absorber is built into the braking system and will stop a fall in less than one foot.

Some Retractable Lanyards are equipped with built-in retrieval systems and are designed to be used in rescue situations. **They are NOT to be used as a winch.** Once a unit has been used as a retrieval system, it must be recertified.

All units have a safe work load of 350 pounds total weight and are proof tested prior to being shipped from the factory. **Any unit which fails a field test or is subjected to an actual fall arrest must be removed from service immediately and returned to the factory for recertification. No annual recertification is required for retractable lanyards.**

Annual Recertification Not Required
for Retractable Lanyards

Web Retractable Lanyard,
1' x 25', Available with
stainless aircraft cable.

Part Number: 21225

Galvanized Aircraft Cable
Retractable Lanyard,
3/16" x 25'. Available with
stainless aircraft cable.

Part Number: 21402

Galvanized Aircraft Cable
Recovery Retractable
Lanyard, 3/16" x 50'

Part Number: 21803

RETRACTAMAN Retractable Lanyard, 1-7/8" x 9'; includes 17150 carabiner. RETRACTAMAN Retractable Lanyards are rated for Fall Arrest (FA), but once used in a fall must be retired from service. RETRACTAMAN Retractable Lanyards are NOT recertifiable.

Part Number: 21210
