GAST 1532

Rotary Vane Vacuum Pump

"Your Needs Are Our Business"

Toll-Free
800-393-4009

The Gast 1532 High Volume Sampling Pump is both durable and economical. Its rugged construction and low maintenance has made it one of the most popular sampling pumps on the market!

With the Gast 1532 producing free flow rate of over 45LPM, users will find that with a supplied locking flow valve, air flow can be sufficiently controlled at rates from 2LPM - 35LPM. The Gast 1532 utilizes Rotary Vane cores to achieve vacuum.

The 1532 pump has an internal muffler chamber and moisture containment system eliminating the need for the Glass Jar system that was found on the Gast 1531 models.

- Extremely Quiet - can be used in many occupied building applications
- Durable & Economical
- Rotary Vane
- Internal Muffler Chamber
- No Glass Jars
- Easily converted to accommodate IAQ applications
- 1 Year Warranty
- Free Flow of 45+LPM
- Adjustable flow of 3LPM - 30LPM
- 1/10 hp Motor
- 10 lbs.
