The Sm.OIL Interface Meter fills the requirement for a SMALL low cost high quality meter for use in shallow monitoring wells.

The 60ft or 20m tape length of the Sm.OIL makes this unit the ideal unit for shallower wells.

The Sm.OIL uses the same technology as the popular HERON H.01L Interface Meter. The probes are field serviceable and all the electronics are full encapsulated for durability. The tape complies with US GGG-T-106E, a recognized standard assuring you of reliable and accurate readings.

Light Weight & Small	Portability
Encapsulated Circuitry	Durability
