

## ***Safely collect cigarette butts chairside on decks and patios.***

The Personal Smokers Cease-Fire™ is an easy, inexpensive way to keep unsightly cigarette litter neatly hidden in an attractive, compact container. It features an oxygen restricting design to safely collect cigarette butts and reduce the risk of fire. Simply drop in a lit cigarette and let the self-extinguishing design do the rest. Simple two-piece flame retardant polyethylene construction opens easily and includes a 1 gallon galvanized bucket for quick cleaning. Its unique design includes an internal drip lip to keep ugly tar condensation from escaping. Non-rusting poly construction and covered opening keep rain out for long-lasting outdoor use.

With an compact footprint of 11" diameter x 30" tall, the Personal Smokers Cease-Fire™ fits into snug areas and is ideal for sitting areas with chairs such as patios, decks, and verandas. Its smaller scale also makes it perfect when space is at a premium, or for light smoking traffic areas. ADA compliant.
