Intelligent design - With its great performance and sleek all-in-one design, the new ThinkPad i Series 1400 notebooks are the affordable desktop alternative for individuals. They feature Intel processors at speeds up to 466MHz and displays up to 14.1". You can even personalize your notebook—choose from seven optional color covers.

Incredibly easy to use - In low-light conditions, the new ThinkLight illuminates your keyboard and lets you keep right on working (model 1480 only). Internet connectivity tailored for you - With an integrated 56K V.90 modem and Easy Launch buttons that take you to Internet sites created by IBM and Lycos, specifically for you and your busy lifestyle, you'll connect to and use the Internet with ease.

Individualized, award-winning IBM service and reliability - In addition to IBM's renowned one year limited warranty and 24x7 toll-free HelpCenter support during the warranty period, your ThinkPad i Series notebook purchase includes membership in Owner Privileges for easy access to technical support, special offers, helpful upgrade advice and more.

**Size:** Width: 332mm (13.1in.)  
Depth: 258mm (10.1 in.)  
Height: 47mm (1.85 in)

**Environment:**

Temperature (at altitudes less than 2438m 8000ft.)  
Operating with no diskette: 5C to 35C (41F to 95F)  
Operating with a diskette: 10C to 35C (50F to 95F)  
Nonoperating: -20C to 60C (4F to 140F)

**Note:** When you charge the battery pack, its temperature must be at least 10C (50F)

**Relative humidity:**

Operating with no diskette: 8% to 95%  
Operating with a diskette: 8% to 80%

**Maximum altitude:**

3048m (10,000ft.) in unpressurized conditions  
Maximum temperature at 3048m (10,000 ft.) 31.3C (88F)

**Heat output:**

Approximately 48 Kcal per hour

**Electrical (AC Adapter):**

Sine-wave input, at 50 to 60 Hz is required  
The input rating of the AC adapter: 100-240 V ac, 50/60 Hz

**Nickel Metal Hydride battery pack:**

Nominal voltage: 9.6 V dc  
Capacity: 3.5 AH
