

The LMH Series Automatic Self-Leveling Rotary Lasers offer fast and simple leveling power to handle your toughest indoor/outdoor jobs with less manpower.

The LMH Series levels itself via electronic sensors interfaced with motors, eliminating the need for re-leveling or rechecks. No more fussing with manual leveling screws or bubbles; just turn it on and you are ready for work! Plus, the built-in Anti-Drift System (ADS) sensor provides peace of mind when working on a busy job site; if the laser's "height of instrument" (H.I.) is altered due to tripod movement or an accidental bump, the operator is instantly alerted.

- **Single Beam** Offers 600 RPM Rotation for Optimal Use with Detector or Depth Sensor
- **Anti-Drift System** to Signal Operator When Unit is Moved Out of Position Automatic/Manual Mode
- **No Bubble Required** – Wide Self-Leveling Range of $\pm 5^\circ$ (1° per Second in Horizontal)
- **Low Battery Indicator** So You Don't Run Out of Power at the Wrong Time
- **Heavy Duty Glass Enclosed Beacon** and Durable Sealed Housing is Water and Dust-Resistant (IPX4) to Ensure Years of Dependable Operation
- **Pro Grade** – Motorized, Electronic Horizontal Self-Leveling

Laser Diode: 650nm— LMH and LMH-C
635nm— LMH-GR

Leveling Accuracy:
LMH-C $\pm 3/32$ -in at 100-ft (± 3 mm at 30m)
LMH, LMH-GR $\pm 1/16$ -in at 100-ft (± 1.5 mm at 30m)

Working Range: Up to 2000-ft (610m) diameter with laser detector

Leveling Type: Electronic Self-Leveling $\pm 5^\circ$ ($\pm 3^\circ$ LMH-C)

Warranty: 2 Years

Environment: Built for all-weather general construction needs (IPX4). Operating Temperature 22°F to 120°F (-6°C to 49°C)

Power: Four (4) "D" cell Alkaline batteries provides 75± hours intermittent use, or rechargeable battery pack provides 30+ hours use

LaserMark™ LMH Series Packages— all include carrying case, and instruction manual

Catalog Number	LD400 Detector	LD100N Detector	Tripod	Rod	Ni-Cad Battery Pack	Carrying Case
