Proactive Drum Pump

Building on over 20 years in business, Proactive Environmental Products developed a revolutionary and proven 12 volt pump designed to handle many of your liquid transfer problems. The 12 volt Proactive Drum Pump is a powerful little pump that will drain over 185 gallons per hour. This little pump is truly an amazing device, powered simply by a portable 12 volt battery. So small it fits in your back pocket! But yet so powerful, it can lift water from 30 feet!

This small device is safe and easy to use being that it runs off a 12 volt battery. Submerge the pump into whatever needs draining. Then simply connect the 12 volt Proactive Drum Pump battery leads to a 12 volt battery, for example an automobile battery. Or if you like, plug the cigarette plug that is attached to the pump wire directly into an automobile 12 volt port. This pump only draws 2.7 amps. For fast safe and reliable pumping reach for the 12 volt Proactive Drum Pump.

The 12 Volt Proactive Drum Pump is totally maintenance free. With a high performance self contained 12 volt DC motor you can rest assure of a long pump life. It never needs priming. Made of super strong ABS material it will not rust or corrode.

Specifications:

POWER CONSUMPTION:	60 WATTS (MAX)
VOLT RECOMMENDATION:	12-15 At Source
MAXIMUM AMP OUTPUT:	4 AMPS
MEASUREMENTS:	1.43" OUTSIDE DIAMETER x 4.5" LONG
REQUIRED TUBING:	3/8" ID OR 1/2" ID LOW DENSITY POLYETHYLENE TUBING
SUPPLIED WITH:	13 FEET OF WIRE, 10 FEET OF 3/8" ID PVC CLEAR TUBING, CIGARETTE PLUG, & BATTERY CLAMPS, HEAVY DUTY 275LB CRUSH RESISTANT BOX.
