

## TRAKPRO™ Data Analysis Software

TRAKPRO Data Analysis Software Version 3.41 is a Windows®-based program that works with a variety of TSI health and safety data logging instruments. This unique software lets you store and organize your test data, as well as generate the detailed graphs and reports needed to effectively communicate your measurement results.

The TRAKPRO software program is included free with every Q-TRAK™ Plus IAQ Monitor, DUSTTRAK™ Aerosol Monitor, P-TRAK™ Ultrafine Particle Counter, SIDEPAK™ AM510 Personal Aerosol Monitor and/or SIDEPAK Personal Sampling Pump (Models SP530 and SP730). This package offers you a truly integrated software tool for many of your health and safety measurement applications.

TRAKPRO software is the ideal tool for performing indoor air quality studies, exposure studies or environmental monitoring. It allows you to view, organize, analyze and save data quickly and efficiently. You can easily download data from any of these instruments and generate detailed graphs and reports.

Main screen of TRAKPRO  
Data Analysis Program.

Data from any of the instruments can be overlapped for a truly comprehensive picture of your test results. Version 3.41 allows users to select from a wide range of presentation formats.

TRAKPRO Data Analysis Software also gives you the ability to configure TSI instruments for unattended operation including start time, stop time, and data rate.

## TRAKPRO Features

- Download data from the Q-TRAK Plus IAQ Monitor, DUSTTRAK Aerosol Monitor, P-TRAK Ultrafine Particle Counter, SIDEPAK AM510 Personal Aerosol Monitor and/or SIDEPAK Personal Sampling Pump (Models SP530 and SP730).
- Display data in color or black and white in tabular or graphical form.
- Combine multiple data sets into a single graph for comparison purposes.
- Define and upload data logging protocols for unattended operation.
- Enter and upload calibration factors for the DUSTTRAK and SIDEPAK Aerosol Monitors.

## Computer Requirements

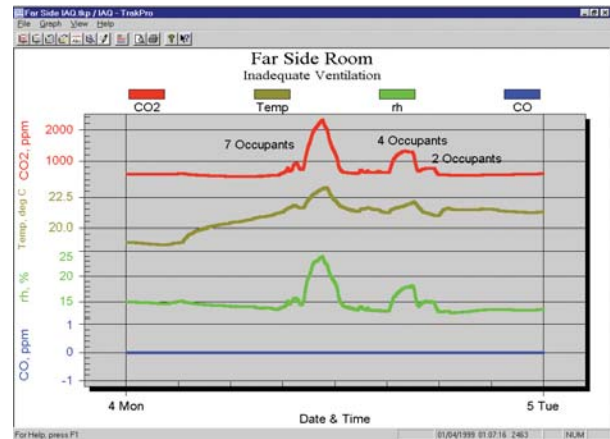

- For Q-TRAK, Q-TRAK Plus, DUSTTRAK and P-TRAK instruments, use Microsoft Windows® 95, 98, Me, NT, 2000 or XP.
- For SIDEPAK instruments, use Windows 98, Me, 2000 or XP (USB not supported in Windows 95 or NT).

## How to Order

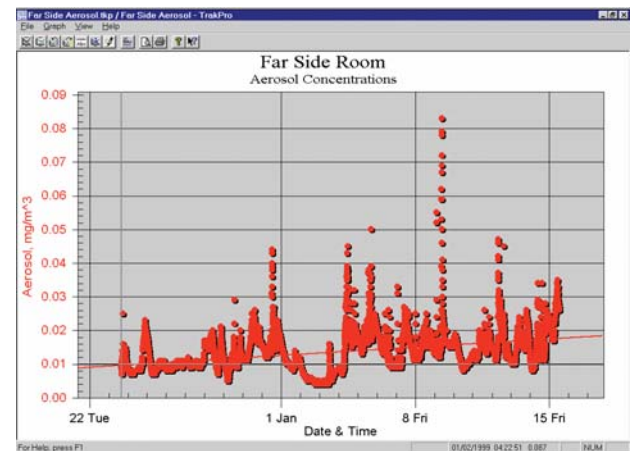

TRAKPRO software is included free with all instruments designed to interface with the software. You can also download the most current version from TSI's web site at any time.

Specifications are subject to change without notice.

Windows is a registered trademark of the Microsoft Corporation.

Display multiple parameters from different data sets simultaneously.

Choose from several presentation styles and curve fitting choices.
