

uvex bandit™

Protective Eyewear that “Hold Up” at work.

The **uvex bandit**: From the world leader in protective eyewear. Not only does its sporty, unconventional design offer great style, it provides superior protection. The wrap-around frame has a dual lens look but is actually a single lens with molded-in sideshields and browguards for excellent protection and field of vision.

The polycarbonate lenses are available with a variety of lens tints including hot espresso. Our patented lens replacement system means quick and easy lens changes that make the **uvex bandit** versatile enough for many different work applications and lighting conditions. **uvex bandit** frames are lightweight and come in stylish, contemporary colors. And of course,

they're coated with **uvextreme® AF**, the revolutionary new anti-fog, anti-static, anti-scratch and anti-UV coating from **uvex**. The famous **uvex ultradura®** hardcoat is also available for enhanced chemical and scratch resistance.

When it's fashion, fit and function you want, the **uvex bandit** steals the show.

Ask about the **uvex bandido™** — the same protection, but with a frameless style and a budget-sensitive price.

**uvex®**  
Beats Everything in Sight

## Technical Information:

uvex bandit™

The **uvex bandit** brings a high level of fashion to uvex's industry-leading line of protective eyewear.

Not only does the **uvex bandit** look stylish, it provides superior protection with its wrap-around uni-lens design.

Enjoy excellent coverage, unmatched comfort and unrivaled quality from protective eyewear made in the USA.

- Adjustable spatulite temples ensure a comfortable and custom fit.

- Wrap-around design with molded-in side shields affords protection from virtually all angles and excellent peripheral vision.

Lenses available with your choice of proprietary permanently bonded coatings:

- **uvextreme** AF anti-fog coating

- **ultradura** Scratch and chemical resistant hardcoat

Meets Industry Standard:

Made in USA

### uvex bandido™

**uvex bandido™**: Same features as the **uvex bandit** except: lower cost, no lens replacement system, and no adjustable temples. Available with hot red/black, yellow/black, concord blue and black temples.

The **uvex bandit** lens is available with clear, amber, mirror and hot new espresso tints: all block >99.9% of UVA and UVB light. Frames come in black, slate blue and copper.

The exclusive **uvex** lens replacement system means workers can change lens tints for specific environments or economically replace scratched or damaged lenses.
