Install Diver-Office

1. Place CD in appropriate disc drive.

2. If CD does not launch automatically, explore CD and double-click **Diver-Office_setup.exe**.

3. Click **Install Software**. The Installation Wizard will launch automatically. Follow the instructions on your screen.

Launch Diver-Office

1. Once the installation is complete, click the **Diver-Office** short-cut located on your Desktop to launch the program.

Create a New Project

1. Upon launching Diver-Office for the first time, you will be prompted to enter a project name.
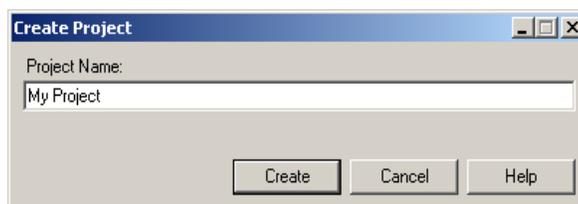

2. Enter a name for your project and click the **[Create]** button.

Define Project Settings

1. Define the settings for your project. Each setting is described below:
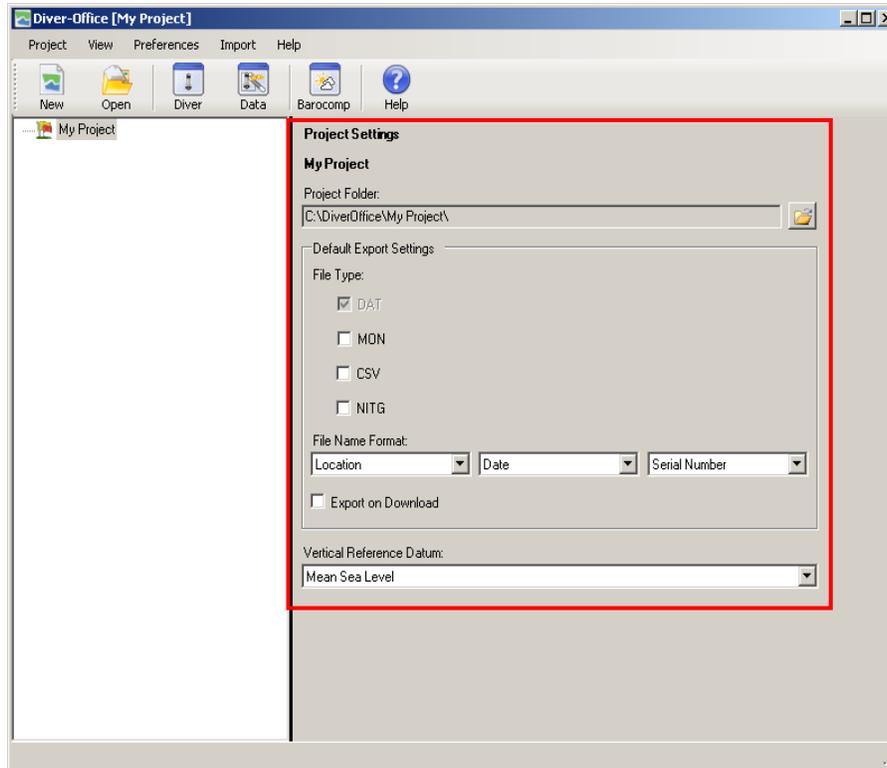

Project Folder	Click the 📂 **Browse** button and select a location on your computer where all exported data files will be saved.
File Type	Select the file types to be generated when Diver data is exported, i.e. MON, CSV or NITG.
File Name Format	Specify the file name format for exported Diver data files.
Export on Download	Select this option to automatically export Diver data file(s) when data is downloaded from a Diver.
Vertical Reference Datum	Select a Vertical Reference Datum *(optional)*
